

What do I do if I am NOT registered as an Agent/Employer Representative with Montana UI?

Registering as an Agent/Employer Representative is only necessary if your company or organization is not subject to UI in Montana but you have clients who are. Registering as an Agent/Employer Representative does not open a UI account for your company or organization it simply records you as a customer and allows us to attach your clients to your UI eServices account (provided we receive proper authorization from your clients). To register as an Agent/Employer Representative simply send an email to uieservices@mt.gov with the following information:

- Legal Name of organization
- FEIN
- Mailing Address
- Contact Information (Name, email, phone number of someone who could be contacted if needed)

Once we receive the information above, we will contact you when your customer account has been created.
